SIFAV 2024 high-, medium- and low-risk countries

High-risk countries are defined as countries with a World Governance Index (WGI) average rating below 60 on 3 or more individual dimensions with as rating below 60. Medium-risk countries are countries with a WGI average rating between 60 and 80. Additionally indicators related to migrant labour, forced labour and fundamental labour rights are taken into consideration for the classification of medium-risk countries. Low-risk countries are countries with a WGI average rating higher than 80.
